

# Juletræ

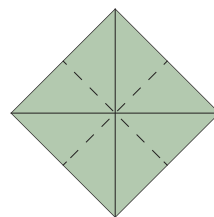

## Foldevejledning

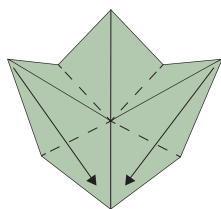

Step 1  
Tag et kvadratisk stykke papir, og fold det både vandret og lodret hen over midten.

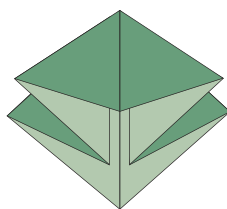

Step 2  
Vend papiret om og fold det diagonalt fra hjørne til hjørne.

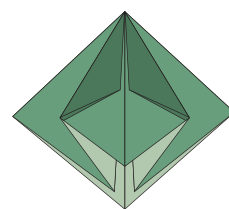

Step 3  
Fold papiret ud og vend det om igen.

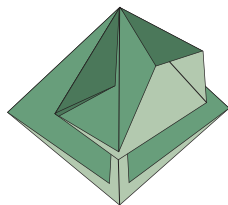

Step 4  
Fold de to hjørner mod hinanden, og pres dem ned mod den nederste spids. Den øverste spids presses herefter også til det nederste punkt.

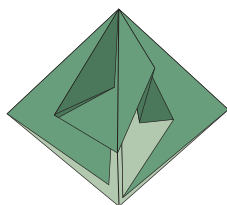

Step 5  
Pres godt ned på toppen af papiret.

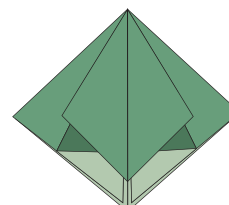

Step 6  
Fold hjørnerne ind mod midten.

Step 7  
Åben op for den ene fold.

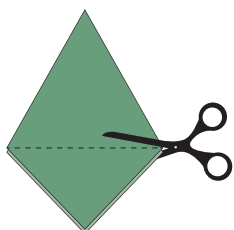

Step 8  
Pres den yderste fold ind mod midten.

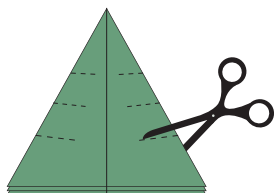

Step 9  
Gør det samme i modsatte side.

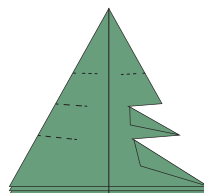

**Step 10**  
**Vend papiret om og gentag step 6-10**

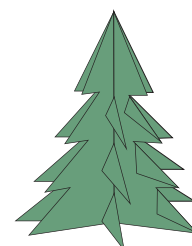

Step 11  
Klip bunden af papirfoldet

Step 12  
Klip ind i træet, og pas på du ikke klipper for langt ind eller for langt nede.

Step 13  
Fold papiret ned hvor du har klippet ind i træet.

Step 14  
Nu er du færdig!
